POSTAL RATE AND FEE CHANGES, 2006

---

Docket No. R2006-1

NOTICE OF THE UNITED STATES POSTAL SERVICE OF FILING  
A REVISED LIBRARY REFERENCE USPS-LR-L-113 [ERRATA]  
(August 2, 2006)

The United States Postal Service hereby files notice that today it is filing a revised Library Reference USPS-LR-L-113, *PRC Version of Parcel Post and Bound Printed Matter Transportation Costs, and Development of Costs for Bulk Parcel Return Service*. One of the electronic files, Attachment B, has been changed as described below. The preface has been changed to reflect the revision.

In cell D10 of Tab "Cost-dist1" (page 7 of Attachment B of USPS-LR-L-113), the correct base year Intra-Alaska non-pref air cost has replaced the original figure which was an inadvertent duplication of the base year Alaskan Highway cost.

In addition, a row has been added to the Tab "Regression" (page 1 of Attachment B) to calculate the average cube for one-pound pieces of Inter-BMC, Intra-BMC and Parcel Select at the suggestion of UPS in their interrogatory UPS/USPS-T25-10. The average cube figures are then applied to the volumes of one-pound pieces separated from the two-pound pieces in Tabs "Inter-Cube", "Intra-Cube" and "Parcel Select-Cube" (pages 3, 4, and 5 of Attachment B).

The corrected Intra-Alaska non-pref air cost and the new rows reflecting the calculation of the cube for one-pound pieces separately from two-pound pieces have been highlighted. The results of these changes necessarily flow through other

calculations within the workpaper, but those “downstream” impacts have not been highlighted.

The revised library reference replaces the original in its entirety. Copies are also on file with the Postal Service library.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorneys:

Daniel J. Foucheaux, Jr.  
Chief Counsel, Ratemaking
